Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 31 December 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1 and 2 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.

DETAILED ACTION

Claim Objections

1. Claim 1 is objected to because of the following informalities: In the specification is not enough description of how the retardation film is used for and the advantage of using the retardation film. Appropriate correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sawai et al., (U.S. Patent No. 6,20,945) in view of Umezaki (JP 5173707)

As per claim 1, Sawai shows a touch screen (in fig.1 element 12) improved with reflection rate of light comprising: a touch panel including an upper structure formed as a lamination of a polarizing film (element 6), a retardation film (as best understood by examiner as phase difference plate) and a first glass plate (element 4 upper glass layer), a lower structure formed as a lamination of a second glass plate (lower structure element 3 in fig.8) and a retardation film (element 1 in fig.8), conductor coating layers(element 5 ito layer as conducting layer) each arranged on an opposing surface of the upper and lower structure, and transparent ink sealed in a space between the conductor coating layers; and an LCD mounted under the touch panel(element 2 in fig.8)

Sawai does not show a touch panel is laminated with an anti-reflection (AR) film applied with anti-reflection treatment.

Umezaki shows a reflective layer (element 8 on a LCD panel in fig.1). It would have been obvious to one of ordinary skill in the art, at the time of the invention was made to have incorporated the teaching of reflective layer as taught by Umezaki's into display structure of Sawai's because it would have enhanced visibility of the display device.

Allowable Subject Matter

3. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art fails to teach or suggest the AR film is laminated to a surface under the retardation film of the lower structure as claimed in claim 2.

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nitin Patel whose telephone number is 571-272-7677. The examiner can normally be reached on 8:00-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bipin H. Shalwala can be reached on 571-272-7681. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
